

CASE STUDY

Taylor Vinters Uses Absolute Secure Access to Evolve Their Agile Strategy, Giving Employees a Seamless and Secure User Experience

Focusing on Secure Remote Access Allows Taylor Vinters to Improve Productivity as it Embraces a Mobile Workforce

An international law firm with offices across the UK, as well as Singapore and New York, Taylor Vinters' clients range from Fortune 500 technology multinationals through fast growth venture-backed and owner-managed businesses to individuals driven by great ideas and passion.

As we adapt to meet the demands of a different way of working, ensuring that our workforce can seamlessly interact with each other and our clients is critical.

STEVE SUMNER,
IT DIRECTOR, TAYLOR VINTERS

THE STORY

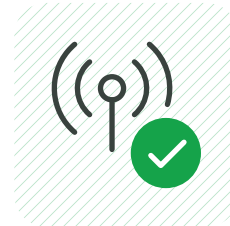

Providing Staff With Reliable and Remote Access to the Resources They Need

Enabling secure remote workers is critical to Taylor Vinters. The firm specializes in areas such as corporate, commercial technology, IP, brands, employment, commercial real estate, disputes, and private wealth, and its staff requires consistent, reliable, and easy-to-use remote access to the services they need.

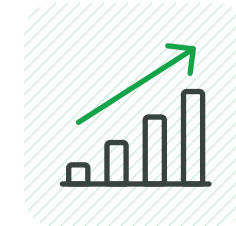

SECURITY CHALLENGES

ELIMINATES DROPPED CONNECTIONS

RELIABLE CONNECTIVITY

IMPROVES PRODUCTIVITY

THE SOLUTIONS

How They Did It

Seamless Access to Corporate Resources, No Matter Where Employees Are

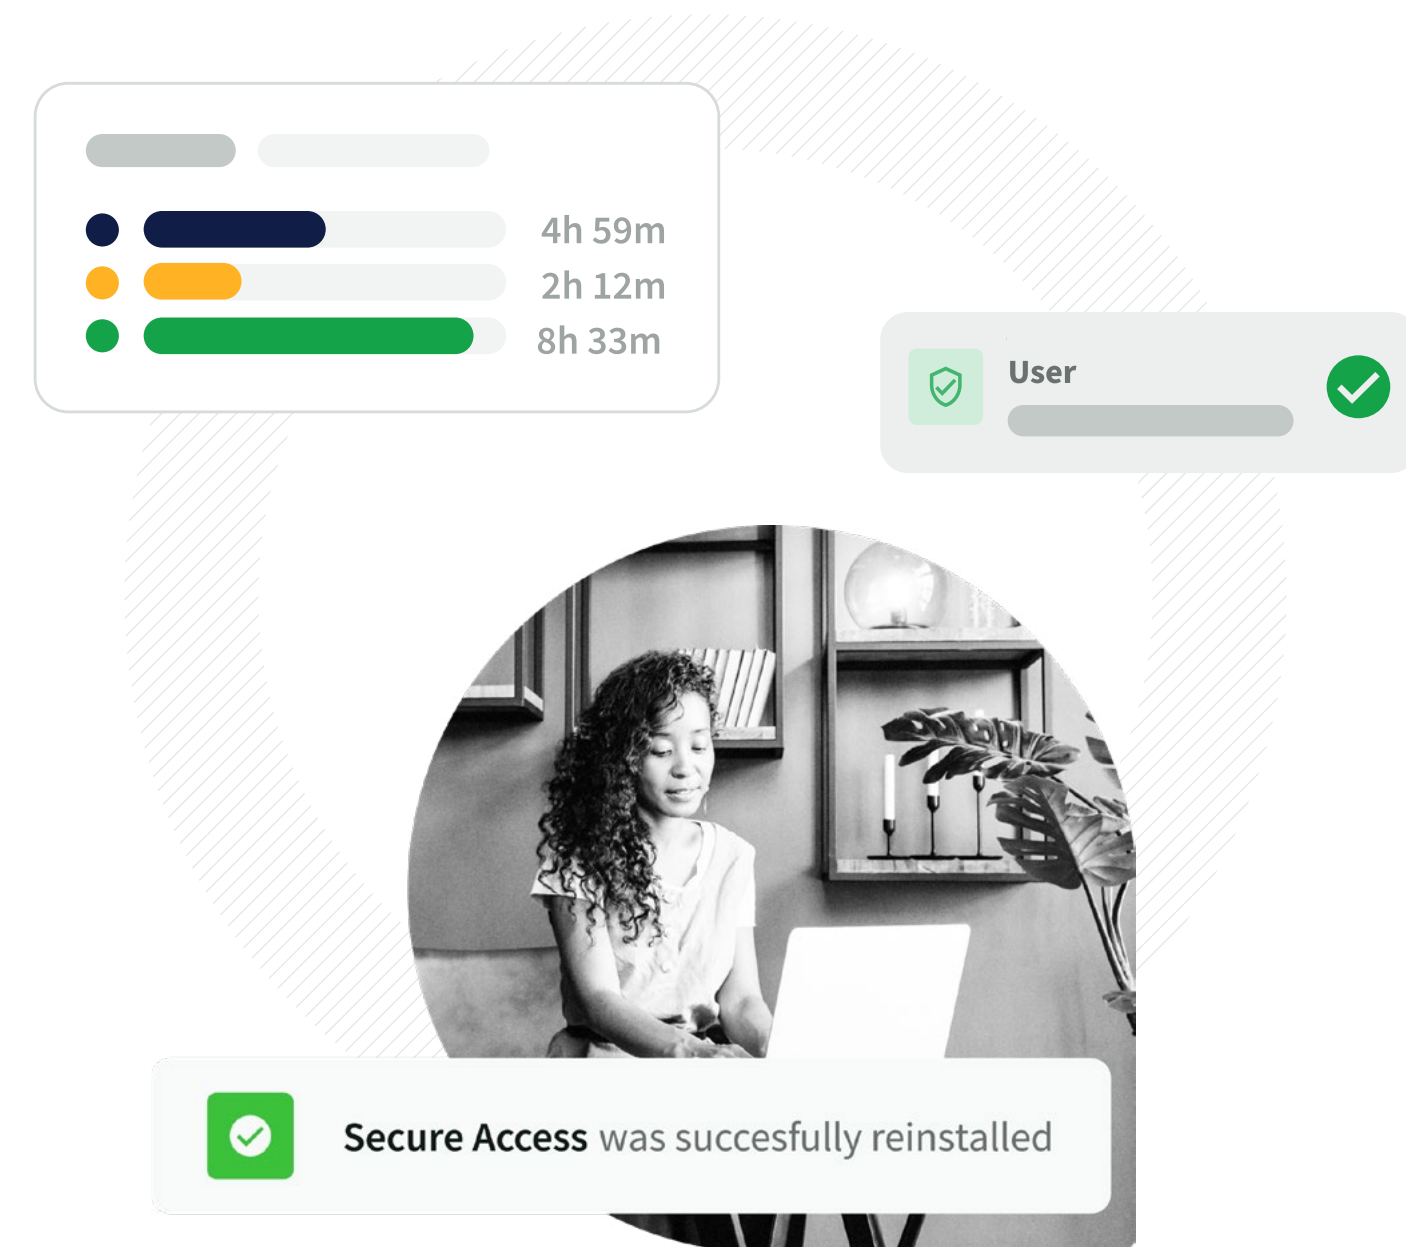

After Absolute Secure Access was introduced to Taylor Vinters, the company set up an initial trial to test the solution before ultimately rolling it out company-wide. Employees now enjoy secure, reliable access to resources wherever and whenever they are working

Easy Secure Access Without Re-Authentication Helps Improve User Experience

Absolute Secure Access provides a simple-to-manage solution that has enabled their staff easy, secure access to company resources while avoiding re-authentication to applications and having to re-login whenever a connection was dropped. This session and tunnel-resilient connection provide users with a seamless, peer-to-peer encrypted 'office-from-anywhere' solution

Control Unsanctioned Access to Company Resources While Remote

Additionally, Absolute Secure Access allows Taylor Vinters to control unsanctioned access to company resources and visualize the users' digital experience whilst prioritizing and optimizing application access.

“

Absolute Secure Access plays a pivotal part in giving us visibility and reliable connectivity.

STEVE SUMNER,
IT DIRECTOR, TAYLOR VINTER

THE RESULTS

Improved Remote Experience = Increased Productivity

Absolute is now at the heart of Taylor Vinters' remote working connectivity stack as it transitions to the demands of a mobile and agile workforce. Absolute Secure Access provides an encrypted, resilient connection for employees to reach the organization's applications and services quickly and easily. To date, Absolute Secure Access:

- ✓ Creates an office-like, seamless experience for users whilst working remotely
- ✓ Eliminates dropped connections/application crashes and the need for users to re-authenticate/log in
- ✓ Provides the workforce with the tools to be more productive and generate higher revenue due to the improved mobile experience

ABSOLUTE[®]

Trusted by nearly 21,000 customers, Absolute Software is the only provider of self-healing, intelligent security solutions. Embedded in more than 600 million devices, Absolute is the only platform offering a permanent digital connection that intelligently and dynamically applies visibility, control and self-healing capabilities to endpoints, applications, and network connections – helping customers to strengthen cyber resilience against the escalating threat of ransomware and malicious attacks.
