

DATA SHEET

Absolute Assist Essentials for Secure Endpoint

Expert IT Operations and Endpoint Security Consulting Services

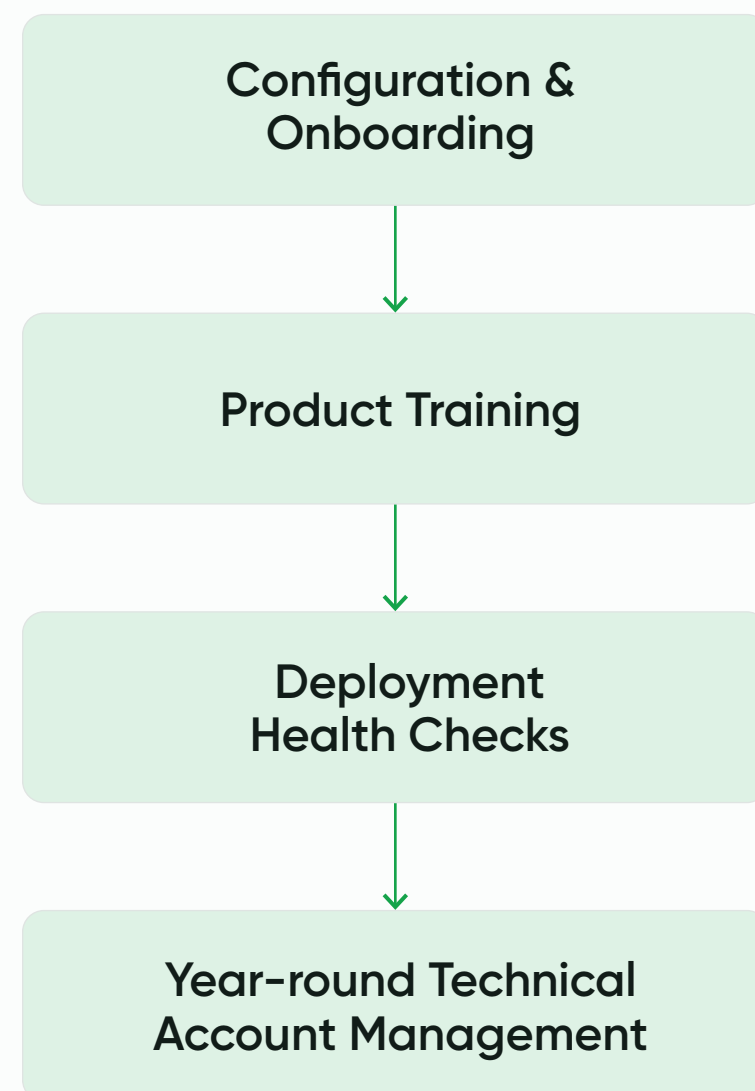

In today's operating environments, where remote endpoints have expanded the attack surface and bad actors stand ready to exploit any weakness, securing your data and devices demands greater expertise than ever.

Accelerate your path to endpoint resilience and maximize your ROI from the Absolute platform with Absolute Assist Essentials for Secure Endpoint, a comprehensive onboarding and account management service that will speed time to value, equip your team with best practices, and strengthen your overall security posture.

Built on years of industry experience, thousands of satisfied customers, and a foundation of proven security principles, Absolute Assist Essentials ensures that your organization is protected by Absolute Secure Endpoint, the only undeletable endpoint resilience platform.

Absolute Assist Essentials

Service Overview

To ensure long-term success in operating and optimizing your Absolute environment, Absolute will provide a Technical Consultant to deliver ongoing support and regular reports on the status of your environment. Technical Consultants are subject matter experts and work directly with you to optimize the use of Absolute Secure Endpoint in your environment. Services provided or arranged by the Technical Consultant as part of Absolute Assist Essentials include:

- Monthly check-ins to review your organization's projects involving Secure Endpoint and any open support issues
- Secure Endpoint product deployment and configuration (for new customers)
- Annual environment health check and executive QBR review
- One or more seats per year (based on licensed device count) in the Secure Endpoint Certification course

Service Details

Making the most out of your investment and ensuring device visibility and control, resilient security and continued compliance are critical to maintaining alignment with regulatory requirements. Our team of experts are here to help you maximize your investment, proactively leverage Absolute to combat ongoing security threats, and help ensure your endpoints are visible and within your control.

During this engagement, an Absolute Technical Consultant will be assigned and help ensure your program objectives are met (as defined and agreed to by your organization and Absolute). Based on a clear understanding of customer needs, Absolute Technical Consultants will guide you through a variety of services including:

1. General

- Ongoing onboarding with requirements reviews (deployment, configuration, base implementation, training)
- Lifecycle consulting program execution
- General account oversight
- Proactive escalation support for open issues

2. Technical Account Management

- Monthly check-in meetings with your Secure Endpoint administrators
- Project status review of any internal projects involving Secure Endpoint
- Review of open technical support cases with Absolute
- Semi-annual Executive Business Review meeting with key stakeholders from Absolute and your organization

3. Account Health Assessment

- Product release updates
- New feature orientation and training for console administrators as needed
- Current console health review and annual “health check” report (insights within specific areas to provide guidance and best practice recommendations upon customer approval of access to Absolute telemetry data by the Technical Consultant and support team)
- Security posture review related to Absolute platform capabilities – Anti-malware, encryption, sensitive data, console user management and related. Some capabilities are dependent upon license type

4. Training

- One or more seats per year (based on licensed device count) in our Secure Endpoint Certification course to:
 - › Ensure new staff are fully trained and certified
 - › Ensure staff stay up to date on newly released Secure Endpoint features

How to Get Started

To get started with Absolute Assist Essentials for Secure Endpoint, reach out to your account executive to discuss how **Absolute's Professional Services** can help.
